

Date- 09-07-2024

Task 1: Improvements in Contact form (completed)

Task 2: Mortgage repayment calculator coding challenge (partially completed)

In task 1, I've made following improvements in contact from:

- Increase the height and width of the contact form
- reduce the size of radio button
- disable the resize option for textarea
- increase the border radius and padding of submit button
- Update validation messages to be more context-specific, using field names where applicable

here is a link to live site: https://pawandadra.github.io/contact_form/

In task 2: I've completed almost all CSS part.
