Task 1: To make webpage for checking if the number is odd or even.
(completed)

Task 2: Continuation to CSS tutorials (Completed)

In Task 1 I've designed a web application to check if the number is odd or even. Here is a link to live site: <https://check-odd-even.vercel.app/> and here is a link to GitHub repo: https://github.com/Pawandadra/Odd_Even

In Task 2 I've completed tutorials on Positions in CSS, Visibility and z-index, CSS Flexbox, em, rem, vh and vw units, Media queries, more in CSS selectors, attribute and nth child pseudo selectors, before and after pseudo selectors.

Here is link to practice sheets: https://github.com/Pawandadra/CSS_practice

Additionally, I've added a CSS and HTML part to one more mini game i.e. Snake-Water-Gun.

Here is the link for game: <https://snake-water-gun-game.vercel.app/>

Here is link to source code:
