Task 1: JavaScript Tutorials (completed)

Task 2: Practice Learned Things by Programming (completed)

In Task 1 I've completed tutorials on introduction to Arrays, JavaScript Array methods, using loops with arrays, map filter and reduce in JavaScript, JavaScript in the browser, JavaScript Script tag, JavaScript Console object, JavaScript alert, prompt and confirm, introduction to DOM, BOM and window object, Walking the DOM, accessing children of an element, parents and siblings of an element, Element only navigation and table navigation.

In Task 2 I've completed Practice Sets by doing programming in JavaScript. Here is the link to Repls for your reference:

Practice Set 5: https://replit.com/@pawankumarpk361/PracticeSet5JS?v=1

Practice Set 6: https://replit.com/@pawankumarpk361/PracticeSet6JS?v=1

Additionally, today I've created two mini games using JavaScript.

Guess the Number:
